

305M/REEL

1.Cat7 S/FTP
Network Cable
Conductor:0.58mm OFC
Insulation: PE
Stranded wire:4 twisted pairs
Shielded:Pair Shield+Al Foil + BD
Jacket:PVC
OD:8.2mm

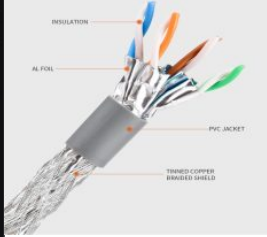

SPECIFICATION

Brand Name: PRO-COM	Product Name: CAT7 SHIELD NETWORK CABLE
Specification: CAT7 SUTP 23AWG	Materials: OFC Copper, Virgin PE and PVC
PLATING: Silver Plated	Transmission: 100Gbps
Standard: TIA/EIA 568.2	Application: Ethernet Networking, Gigabit Cabling, Data Center, Security Pkg.

DOUBLE SHIELDED, STABLE TRANSMISSION

Foiled twisted pairs with tinned copper braided shield provide strong anti-interference of electromagnetic from external and reduce crosstalk.

FULL LENGTH MARKING 100CM=1M

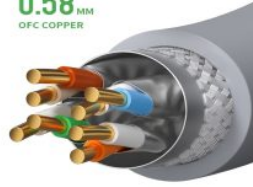

Decoding length cable marking enables a easy identification of remaining cable to reduce installation time and waste.

305M 1000FEET

4 FOILED TWISTED PAIRS STABLE AND ANTI-INTERFERENCE

The pairs are twisted standard and tight, foiled shielded which is anti-interference of electromagnetic and reduce crosstalk, enable the cable to carry stable and high-speed transmission.

0.58MM
OFC COPPER

10Gbps HIGH-SPEED SHIELDED ANTI-INTERFERENCE
