

## Specification

Product size:86Lx86W (mm)

Product material: fireproof and flame-retardant material

Installation method: exposed installation

Power supply voltage:DC12V

Maximum current:3A/125-250VAC

Contact output:NO/COM

Durability testing:500000 times

Applicable to hollow door frames of door type

Applicable temperature: -20 °C~+55 °C (14-131F)

Applicable humidity:0-95%

Product weight:0.1KG

## Dimension
